Colonel Rodman, supervisor of high-ways for Rhode Island, was in West-erly Thursday, in consultation with Contractor Bristow, who is to macadam a section of the Shore road, and with Councilman Albert H. Langworthy of the highway committee and Ellihu Chesebro highway commissioner. The party went by automobile to the Shore road, where the preliminary work has been completed and the actual work of building the road will be commenced Monday. It was at first intended to rebuild the Shore road at its intersection with the Watch Hill road for a distance of two miles, but it was decided Thursday that it would be economical to continue the work on to Langworthy's corner, a stretch of four miles, and not wait until a year hence.

Unquestionably there are marriages which are unfit from a physical point of view; but it may be doubted if any science of "sugenics" though promoted by a national committee of eminence. by a hational committee of eminence, can decide with absolute certainty who are unfit to marry and who are fit. It will not do to settle so delicate a question wholly by heredity, that principle has been decidedly overworked, and there are many intelligent persons who believe that a man's character is not to be determined solely by his ancestry. Dr. David Starr Jordan the chairman of the committee referred to, helds that all Kinds of referred to, helds that all kinds of unfitness might be barred by law. Here is an opportunity for some person of means to do something in the humane and charitable line. A suitable ambulance could be purchased for \$200, and could be stored at small expense in some centrally located livery pense in some centrally located livery stable and in secretain for users the same country and the same was \$0.167,187 gross, valued at \$898,054. > MANY QUEER AIDS TO MEMORY. Simple Devices Resorted to by People Who Can't Remember.

Many and varied are the methods to which busy men have recourse in order to keep their memory "peeled." Very simple is the mnemonical system of a well-known journalist, who merely ties a small piece of ribbon round his walking stick. Many a handkerchief into a series of knots to remind him of the numerous little domestic duties he has faithfully promised to perform during the day.

A very successful plan is that of shrewd business man, who has recourse to the use of pepper or snuff to jog his memory. A liberal dese spread over his handkerchief greets his olfactory nerves whenever he extracts it from his pocket, and, as he himself says, "that reminds me."

Very effective is the method adopted by some astute people who place their finger rings on their keyring. By this means they are not only reminded of something by the absence of their rings from their hands but every time they use their keys the fact is forced upon their attention. There is one old government clerk who is an amusement to all the juniors. When he has any matter of urgent importance to attend to in the morning he invariably ties two of his fingers together with a small piece of red tape.

CRITICISM OF "PRAYING MAN." Great Preacher Saw Little Virtue In Certain Forms of Appeal.

When men begin their prayers with "Oh, thou omnipotent, omniscient, omni-present, all-seeing, ever-living, blessed potentate, Lord God Jehovah!" I should think they would take breath. Think of a man in his family, hurried for his breakfast, praying in such a strain! He has a note coming due, and it is going to be paid to-day, and he feels buoyant; and he goes down on his knees like a cricket on the hearth and piles up these majestically moving phrases about God. Then he goes on to say that he is a sinner; he is proud to say that he is a staner. Then he asks for his daily bread. He has it; and he can always ask for it when he has it. Then he jumps up and goes over to the city. He comes back at night and goes through a similar wordy form of "evening prayers;" and he is called "a praying man." A praying man? I might as well call myself an ornithologist because I eat a chicken once in a while for dinner .- Henry Ward Beecher.

### Medicine Frauds Should Be Exposed

There have been plenty of them, no doubt, and they have been vigorously condemned—so vigorously that every sort of medicine the formula of which is privately owned is condemned and pronounced "uncthicar" by the Medical Profession.

Eckman's Alterative deserves attention, not because it is a "proprietary" but because it really has cured many cases of Tuberculosis. If it is a fraud it needs exposing badly, because a number of cured Consumptives will need to find some other reason for being well.
